

Supplementary Information

Supplementary Results

Yeast proteome analysis based on data in Schwikowski et al, Nature Biotechnol. **18**: 1257-1261 (2000)
1825 protein with 2238 interactions

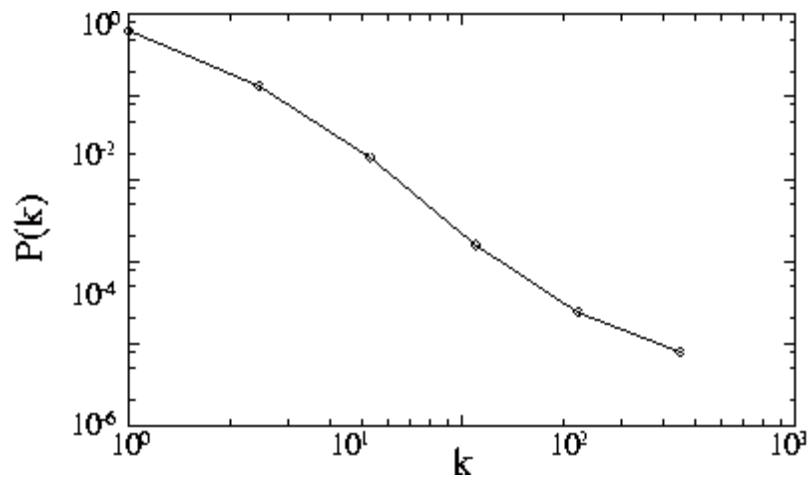

H. Pylori proteome analysis based on data in Rain et al, Nature **409**: 211-215 (2001)
724 protein with 1407 interactions

Yeast proteome analysis based on recent data in Ito et al. PNAS **97**, 1143-1147 (2000), PNAS **98**, 4569-4574 (2001).

CORE Data : (797 protein with 780 interactions)

FULL Data : (3280 protein with 4434 interactions)
